Subject: Microsoft Settlement

To Whom It May Concern:

I am appalled by the Government's desire to brush a huge monopoly under the rug in the interests of "saving the econonmy."

A federal judge has ruled that Microsoft engaged in monopoly practices, and they should be dealt with accordingly. Your office should not cave.

They continue to drag this out and get their hooks into more and more markets while the parties dicker over a settlement. Can't you see that? Pretty soon people will not be able to access the internet unless they have a Microsoft product or Microsoft operating system. This is sheer madness. I can't believe your office is so toothless.

I hope your office will wake up and put some honest effort into antitrust enforcement against Microsoft, which has been adjudged a monopolist, and which ruling has not been overturned.
